- Pouring
- Sweeping
- Sewing
- Tweezing
- Sorting
- Matching

Music, Movement & Drama

- Instruments
- Dancing Scarves
- Songs
- Finger Plays
- Dramatic Play Area
- Theater Props
- Outside Play Time

What will my child do and learn in Kids Create?

In September:
Introductions

We will explore our classroom and **make new friends**. We will learn how to take care of our things and each other. Through art, dance and theater we will have fun and learn while we work, sing, dance, play, laugh and create.

-An introduction to learning the spectrum. The color **RED** will be available to explore through, manipulating and matching red objects, matching the letters to spell red, songs, a book about red, and red collage materials.
-The **letters Aa and Ll**

We will focus on these letters through art projects, tracing, matching, books, songs and exploring objects that start with these sounds. We will be creating an Alphabet Book that will be a collection of your child's art that corresponds with each letter.

-**Number 1**

We will touch, trace, count, match, clap, sing, spell and have lots of fun with number one.

-Materials in the classroom will reflect the end of summer and the changing of the seasons.
